Answer Key

A Note to All Students About the Answer Key & Book Series

Hello students!

I hope you are doing well and working towards enhancing your general knowledge and awareness through the ‘Empowering GK with Global Jigyasa’ series among other resources.

Before you open the answer key, **I just want to make sure that you have tried your best to find the answers for yourself!** All of us as human beings love getting answers to questions asked. It is human nature in fact.

However, when it comes to GK or any other subject, it is important to make sure that **we try our best to find the answers for ourselves before we use resources like answer keys.** Students, trust me when I say that you learn more while searching for answers than you do once you get them.

General knowledge and awareness are all about reading new things. The joy of *jigyasa* or the curiosity to learn is what will make you better at GK. Keep your eyes and ears open to learn about anything happening around you, in your society, your nation and the world. We don't always need to learn with a clear objective in mind like an exam, a test or school homework. **Learn for the fun of it! That's what GK is about.**

Google search, use Wikipedia or other modes to learn more about the topics covered. Discuss answers with your friends and more importantly, discuss all covered topics and chapters in greater detail. And then, once you are done with all of these things, access this answer key! *For students of younger grades (Grades 1 to 3), parents must help and be a part of this process.*

It is for this reason that the answer key has not been provided at the back of the GK book. **We also want you to access all resources on the online portal such as the Weekly Current Affairs Quizzes and Extra Questions (per chapter).** Only when you do this, will you be fully utilizing the book and ensuring that it not only helps you enhance your GK but also your current affairs knowledge.

That said, I hope the answers in this answer key provide you with a gateway to *global jigyasa!*

Stay updated! Stay enlightened!

Regards,
Anansh Prasad
Author – Empowering GK with Global Jigyasa
Founder and MD – SkillSphere Education

*One day our nation is sure to fly. With these wings which at present dormant lie.
And whether anyone else is there or not, we shall be there to see it off.....*

- Anansh Prasad

NOTES FOR TEACHERS

64

Identity proofs are those documents which are used as proof to confirm a person's identity – their name, appearance, age, address among other details.

As Indians, we have many identity proofs. Here are some of the most common ones.

Aadhar Card: A card with a 12 digit unique identification (ID) number that all Indian citizens should get made. It has many details about us including our photos, permanent addresses, fingerprints etc. This is a sample PVC Aadhar card. There is also a paper version of the Aadhar card.

India's Aadhar is the world's largest biometric ID system!

The Aadhar card can also be linked with your mobile phone number, bank accounts and other government schemes.

1. Do you have an Aadhar Card? YES

2. What is the 6th digit of your Aadhar Card number? 4

3. On what date was your Aadhar Card printed? 15.04.2016

4. Can you name some of our other identity proofs?

A) Passport B) PAN CARD C) SCHOOL ID CARD

5. Name some places where people have asked for your identity proof.

A) Airport B) BANK C) SCHOOL

CH 2 MY FUNDAMENTAL RIGHTS AND DUTIES

We are all **citizens of India**. As Indians, we are all granted **fundamental rights**. Fundamental rights are basic human rights that every Indian is entitled to. It doesn't matter who you are!

If somebody violates your fundamental rights, they can be punished in an Indian court of law.

Our 6 fundamental rights are:

Right to Constitutional Remedies

Right Against Exploitation

Right to Freedom Of Religion

Right to Equality

Right to Freedom

Cultural And Educational Rights

Jigyasu's Quizzes!

Fill in the blanks with the correct fundamental right in each case
Let's see if you understand your fundamental rights.

- Trishta is from Mumbai. Sachit is from Rajkot. Both of them have an opportunity to apply for a job with the Indian government thanks to the **Right to Equality**.
- Zeriska is a Christian and I am a Hindu. Both of us will be treated in the same way by the Indian government as we have the **RIGHT TO FREEDOM OF RELIGION**.
- If my Right to Freedom of Religion is being violated, I can appeal to a court of law in India as I have the **RIGHT TO CONSTITUTIONAL REMEDIES**.
- Avni Ekka belongs to the Oraon tribe in Jharkhand. She can seek admission in any school or college as she has **CULTURAL AND EDUCATIONAL RIGHTS**.
- My family and I live in Bhopal. We want to visit Mahabalipuram for a holiday. No one can stop us as we have the **FREEDOM** of movement.

Jigyasu's Quizzes!

Language Integrated Activity

While all Indians have fundamental rights, we also have 11 fundamental duties towards the nation.

Fundamental duties are moral obligations that all Indians have towards the nation. They further the spirit of patriotism and unity among all Indian citizens.

The following 10 sentences are related to our fundamental duties. Strike off the incorrect word in each sentence. One example is given.

1. To abide by the Indian Constitution and ~~respect/overt~~ our National Flag & National Anthem
2. To follow the ~~noble/knowhow~~ ideals which inspired our freedom struggle against British rule
3. To protect the unity, ~~integral/integrity~~ and sovereignty of India
4. To defend the country and perform national ~~service/servile~~ whenever the country requires us to do so
5. To promote ~~melody/harmony~~ and the spirit of brotherhood among all Indian people
6. To value and preserve the rich heritage of India's ~~simple/composite~~ culture
7. To protect and ~~improve/propose~~ the natural environment including forests, lakes, rivers, wildlife and to have compassion for living creatures
8. To develop the scientific ~~temper/anger~~, humanism and the spirit of inquiry and reform
9. To safeguard public property and ~~to/with~~ abjure violence
10. To strive towards excellence in all ~~spheres/triangles~~ of individual and collective activity, so that the nation constantly rises to ~~higher levels/floors~~ of endeavor and achievement
11. Who is a parent or guardian, to ~~serve/provide~~ opportunities for education to his child, or as the case may be, ward ~~between/under~~ the age of six to fourteen years.

What is the first thing you associate your **heart** with?

Love? Emotions? While most of us think of our heart in such situations, the truth is that it plays a very different role in our bodies.

The **heart** is actually like a **water pump**  with pipes connected to it. Except that it does not pump water to all parts of our body. It pumps a red liquid that we see coming out of our bodies whenever we get a cut.

What is this liquid? It's **blood!** 

The Circulatory system

Heart pumping oxygen

As we know, we **breathe in oxygen**  and **breathe out carbon dioxide**  from our lungs to survive, all parts of our body need oxygen and essential food nutrients which are carried by blood  to them. **The left side of our heart** pumps this **oxygen rich** blood from our lungs  to the rest of our body. Thanks to this, our body parts get energy  and nourishment to perform different tasks.

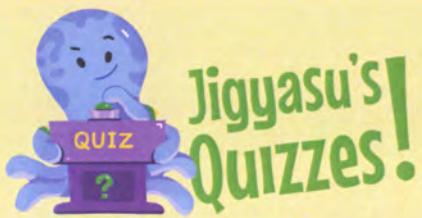

However, in this process, our body parts produce **carbon dioxide** and other **waste materials** that need to be taken out of our bodies to survive. Our blood and heart come to the rescue once again! The heart hence actually acts like a 2 way pump. Its **right side** pumps this **carbon dioxide rich blood** back from all body parts to the lungs.

What happens to this carbon dioxide rich blood in our lungs ? The carbon dioxide is breathed out! The fresh oxygen we breathe in is absorbed into the blood which circulates through our body once again. The pipes  through which blood flows in our body are called **blood vessels**. 

So the next time you feel your heart  beating 'lub-dub' , you know why it's doing so. Isn't it?

A beating heart

Circle the correct answers in these questions that relate to the passage.
More than one answer may be correct.

1. Which side of the heart pumps blood back from the body to the lungs?
 - A. Both Sides
 - B. Left Side
 - C. Right Side

2. Which of these food items would the colour of blood be closest to?
 - A. Toor Dal
 - B. Vanilla Ice Cream
 - C. Ketchup

3. Which of these roles does your heart not play?
 - A. It pumps blood
 - B. It breathes in oxygen
 - C. It produces emotions

4. What are the pipes that carry blood across our body called?
 - A. Water Pipes
 - B. Blood Vessels
 - C. Food Pipes

5. Can you find out how many times your heart beats per minute?
 - A. 5-10 times
 - B. 70-100 times
 - C. 500-1000 times

6. Which of these body organs is not a part of our circulatory system?
 - A. Heart
 - B. Liver
 - C. Stomach

7. Which of these gases can our body parts not survive without?
 - A. Oxygen
 - B. Carbon Dioxide
 - C. Helium

8. What happens to blood inside the lungs?
 - A. Carbon Dioxide is removed from it
 - B. Oxygen is absorbed into it
 - C. Nothing happens

Your heart beats over 1,00,000 times (1 lakh times) per day!

**CH 5**

MY STATE AND IT'S FEATURES

All of us live in a different Indian state
In their own ways, each one is great
From monuments to mountains tall
Different cultures & festivals in all
Governments run each one of them
With a Chief Minister at the helm
Many cities, roads and people too
I love my state! What about you?

- Anansh Prasad

Jigyasu's Challenges!

Answer the following questions and complete the mentioned activities related to your state

Q1. What is the name of your state? MAHARASHTRA

Q2. And its capital city/cities? MUMBAI

Q3. Name any 3 other cities in your state. NAGPUR, PUNE, NASHIK

Q4. Go through any newspaper from the past month. Can you find any picture of your state's Chief Minister and your state? Cut them and paste them here.

Q5. What are the 3 most famous monuments in your state/union territory?

GATEWAY OF INDIA, AJANTA AND ELLORA CAVES AND
BIBI KA MAQBARA

Q6. Can you name any 3 major physical features of your state/union territory? (mountains, rivers, lakes etc.)

GODAVARI RIVER, SAHYADRI MOUNTAINS, LONAR LAKE

Q7. What are the things you like the most about your state/union territory?

I LIKE THE COASTLINE & BEACHES

Q8. What are the things you like the least about your state/union territory?

THE HOT AND HUMID WEATHER

Q9. Can you describe your state/union territory (physical features, monuments, culture etc.) through a drawing?

Use the box provided below to make it.

CH 6 STATES OF INDIA - LANGUAGES

India is the land of languages. It is one of the countries in the world that has the most number of languages!

We have 22 official languages recognized by the Indian Constitution but beyond them, there are many others.

Can you name all of them? Search for the answer on the internet if you can't.

As per the 2001 Census, India had 122 languages which were widely spoken across the country, and 1599 other languages! That's almost 50 times more languages than most countries!

How many Indian languages can you speak? 3
Name them.

ENGLISH, HINDI, MARATHI

There is a saying in India - 'Every few kilometres, the taste of water and the spoken language changes in the country!'

While many of us think Hindi is our national language, India has no national language. It only has official languages!

Jigyasu's
Facts!

Jigyasu's Challenges!

Can you learn how to say the following things in 5 different official languages of India?

1. Hello
2. Thank you
3. Welcome
4. India is the best!
5. Protect our wildlife

Jigyasu's Quizzes!

Every Indian state has its set of languages which are widely spoken in it. This adds to the diversity of India. We must never make fun of anyone else's language!

Fill in the following statements related to states and languages. One example is given.

1. If the language of Malayalam is being widely spoken by people in this city, then Henna is most likely in Kochi (~~Kochi/Srinagar~~)
2. If I am going to the city of Pune, I can expect a lot of people to speak this language - ~~MARATHI~~ (~~Santhali/Marathi~~)
3. Rabindranath Tagore wrote our national anthem in the language called ~~BENGALI~~ (~~Gujarati/Bengali~~)
4. ~~GERMAN~~ (~~German/Assamese~~) is not one of the 22 official languages of India
5. I have visited Bhubaneswar. One of the languages that a lot of people are speaking here is ~~ORIYA~~ (~~Kannada/Oriya~~)
6. ~~ENGLISH~~ (~~English/Polish~~) is a language that is spoken more widely in India than Spanish
7. The official state language of ~~ANDHRA PRADESH~~ (~~Andhra Pradesh/Tamil Nadu~~) is Telugu
8. ~~HINDI~~ (~~Hindi/Bodo~~) is the most widely spoken language in India
9. ~~MAITHILI~~ (~~Sindhi/Maithili~~) is a more commonly spoken language in Patna than in Bengaluru
10. A large section of people in Chandigarh speak ~~PUNJABI~~ (~~Punjabi/Konkani~~)

CH 7

INDIAN MEDICINE - AYUSH

Jigyasu's
Quizzes!

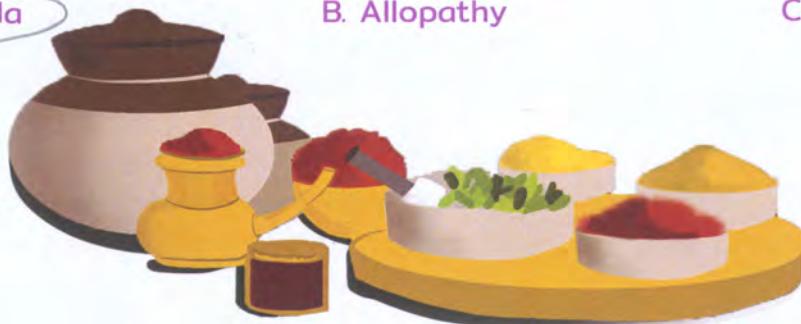

AYUSH is a short form for different traditional and alternative medicine systems in India. Answer the following questions to learn what each letter stands for!

- The **A** in AYUSH stands for an ancient Indian system of medicine and healthcare. Believed to be over **2500 years old**, most of India's population follows it in some form or the other. Its name literally means '**life knowledge**'. What does A stand for?

A. Ayurveda

B. Allopathy

C. Surgopathy

- The **Y** in AYUSH stands for **2 things**. For one of them which is a spiritual, mental and physical practice, **21st June** every year is celebrated internationally as its day. The other is a form of alternative medicine that believes in the **body's ability to self heal** through natural methods. What does Y stand for?

A. Yuva and Namaskar

B. Yoga and Naturopathy

C. Yama and Niswarth

- The **U** in AYUSH stands for a traditional medicine system brought to India by the Persians and Arabs. Its name literally means '**Greek**' and it is practised by **hakims** across India. What does U stand for?

A. Unmijaz

B. Ulema

C. Unani

- The **S** in AYUSH stands for the oldest system of traditional medicine practised in India. It originated in South India, and its **practitioners prescribe herbs and other natural substances** for healing. What does S stand for?

A. Surgery

B. Sanyas

C. Siddha

- H** is a form of alternative medicine that came out of Europe. It is based on its own theory of '**like cures like**'. Its medicine is generally given in the form of sugar pellets mixed with liquids. **What does H stand for?**

A. Homoeopathy

B. Haematoma

C. Harisharanam

Indian Space Research Organisation (ISRO) is India's national space agency. Headquartered in Bengaluru, it is one of India's most successful and respected organisations.

From Chandrayaan ☽ to Mangalyaan ☽
And the Gaganyaan 🚀 coming soon
Since the launch of Aryabhata 🚀
To India, ISRO's been a big boon!

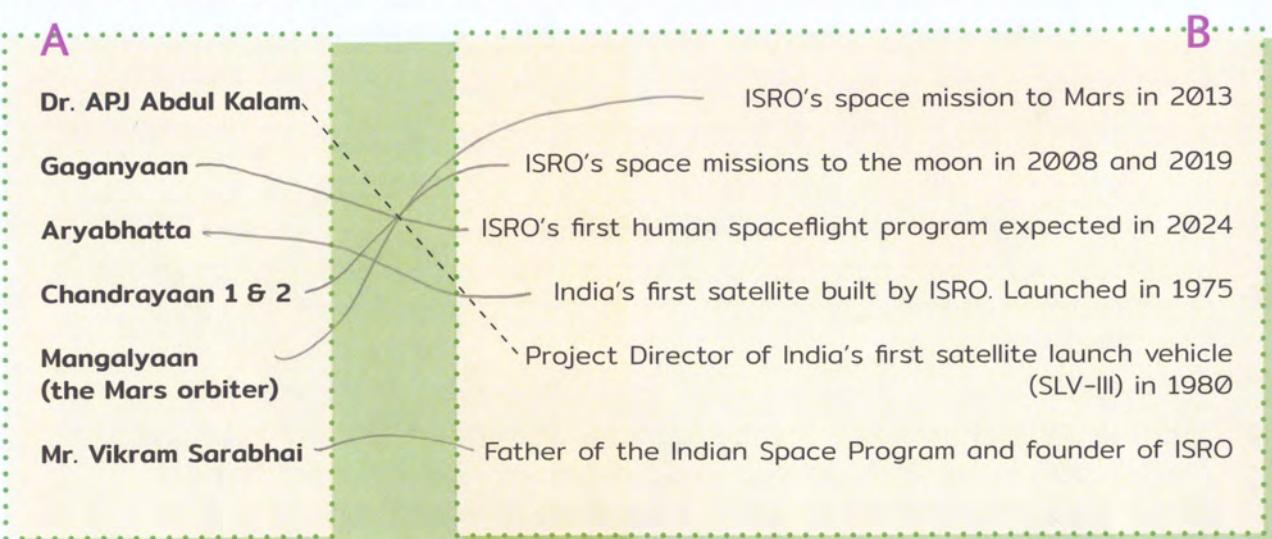

From Mr. Sarabhai ⭐ to Dr. Kalam
Scientists 🧑‍🚀 with a passion unseen ✨

The sky 🌟 has never been the limit
Agencies like ISRO are rarely seen!

- Anansh Prasad

The poem above had many terms related to ISRO, its scientists and missions. Match the columns and identify what these words are related to!

India is the first country to successfully complete its mission to Mars (Mangalyaan) on the first try itself.

Jigyasu's Challenges!

On a clear night, can you spot the planets Venus and Mars in the sky?

The brightest little dot shining in the sky is Venus. The reddish brown dot in the sky is Mars. Try finding them!

Jigyasu's Quizzes!

Tick mark the correct answer in each question related to space and ISRO.

1. Which of these planets comes closest to the Earth and also to the Sun?
A. Mercury B. Mars C. Venus
2. On February 15th, 2017, ISRO created a record by launching 104 satellites using a single rocket from Sriharikota, Andhra Pradesh. The earlier record by Russia was less than 2/5ths this number. How much was it?
 A. 37 B. 46 C. 52
3. ISRO was founded 14 years before India won its first ODI World Cup in cricket. Which year was it founded in?
A. 1993 B. 1969 C. 1997
4. The third chairman of ISRO, Satish Dhawan was another great scientist. He played a major role in building India's first supersonic wind tunnel in 1972. Who was ISRO's first chairman?
A. Homi Bhabha B. Vikram Sarabhai C. K Sivan
5. Which of the following planets has ISRO not undertaken a space mission to as yet (more than one answer may be correct)?
 A. Jupiter B. Neptune C. Pluto

CH 10 INDIAN TRADITIONAL ART FORMS

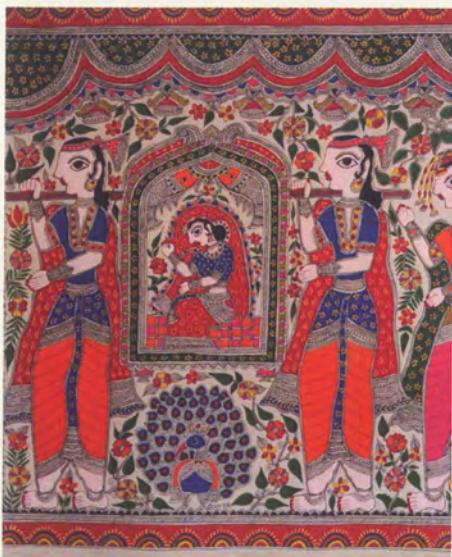

Jigyasu's Challenges!

India is home to some of the most beautiful traditional art forms. Each region of the country has its own style. 4 among the most popular ones are described below.

Can you try making a simple figure/drawing/piece of art for some of the shown art styles? A box has been provided for this.

1. Madhubani Style of Painting

Originated in Madhuban in modern day Bihar. The art form was rediscovered in the 1930s, and has become very popular since then.

Distinct parts of its style include the bulging eyes, pointed noses, and very beautiful borders and backgrounds. Give it a shot! Try to make a simple fish figure in this art style.

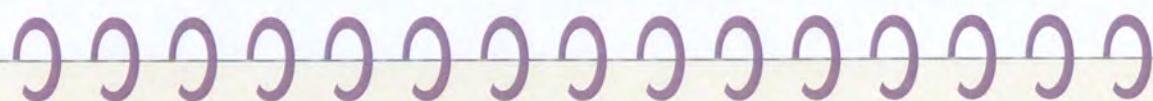

2. Tanjore Style of Painting

This form of art developed from the famous temples of Tanjore in Tamil Nadu. Most paintings initially made were those of Gods and Goddesses.

These paintings make use of gold foil (as shown) and are very symmetrical.

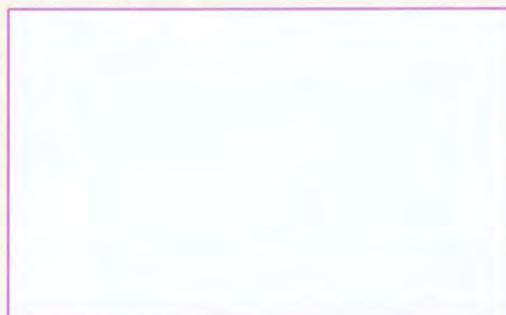

3. Warli Paintings

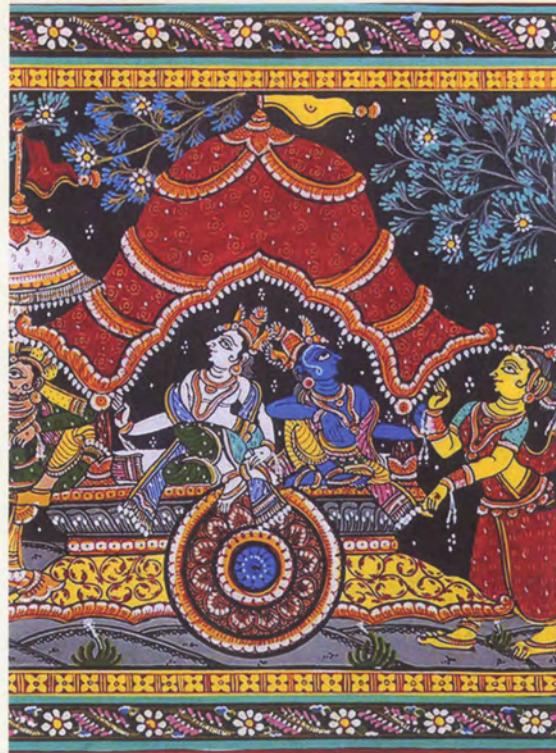

This is a form of art that has originated in the **Western Ghats** in Maharashtra. The Warli tribe developed it.

Paintings are typically white on a red ochre or dark background. The use of triangles, circles and squares is very common. Human shapes are always made as shown! Give it a try. Make anything you like!

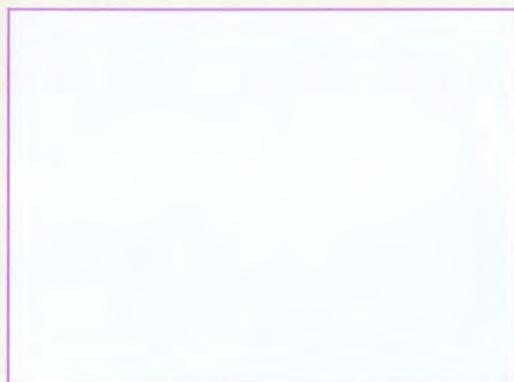

4. Pattachitra Style of Art

This form developed in **Odisha** and **West Bengal**. Paintings in this style are commonly seen at temples in the region such as the famous Konark temple.

Paintings are made on cloth and are very detailed - often depicting mythological stories. **Patta** literally means cloth!

Jigyasu's Challenges!

Provided below are images of different Traditional Indian Art Forms. Identify their names from the box provided below.

Use the hints related to states and their capitals to try and match the images with the names

Mysore style (Hint: Shimla) - Gond (Hint: Kohima) - Miniature Paintings (Hint: Agartala)
Rajput painting (Hint: Aizawl) - Phad (Hint: Thiruvananthapuram) - Tanjore (Hint: Itanagar)

Hint Connection: Arunachal Pradesh
TANJORE

Hint Connection: Kerala
PHAD

Hint Connection: Himachal Pradesh
mysore style

Hint Connection: Tripura
MINIATURE PAINTINGS

Hint Connection: Mizoram
RAJPUT PAINTING

Hint Connection: Nagaland
GOND

Among India's many golden ages, the periods of the **Gupta dynasty** (3rd century AD to 6th century AD) and the **Chola dynasty** (10th century AD and 11th century AD) are considered the greatest. In fact, the period of the Gupta dynasty is the longest golden age that India has ever had - over 200 years!

Founded by King Sri Gupta, the Gupta dynasty controlled most regions of modern day India. The kingdom also extended through many parts of modern day Pakistan and Afghanistan as well! It was not simply the size of the kingdom that made it the golden age though. It had many great rulers such as Chandragupta, Samudragupta, Chandragupta 'Vikramaditya', and Skandagupta.

Panchatantra Tales

Aryabhatta Tales

The Gupta rulers were powerful and intelligent kings. They ensured peace and progress in their empire. All areas of life flourished including **mathematics**, **agriculture**, **science**, **religion**, **literature** among many others.

It is impossible to count the numerous developments in the golden age but we'll try! The **concept of zero** and the **decimal system** came up during this period. Imagine mathematics without them! The popular **Panchatantra tales**, and the **Ramayana** and **Mahabharata** were also written. Scholars discovered **many planets in the solar system** and also that the **Earth is round - not flat**. Chess, other games and many other art forms also flourished!

The Gupta dynasty carried out trade with most parts of the world back then, and many beautiful architectural marvels also came up. Some of these are the **rock cuttings of the Ajanta and Ellora caves**, and the **sitting Buddha in Sarnath**. Kalidasa, Aryabhatta and Varamihira were some of the greatest scholars of the Gupta dynasty. Let's bring India back to the 'golden ages' once again!

Ajanta and Ellora caves

Jigyasu's Quizzes!

Mark the following statements as true or false

1. The period of the Chola dynasty was a golden age for India - **True**
2. The number 100 wouldn't exist without the concept of zero - **True**
3. Kalidasa is a famous Sanskrit poet who wrote 'Raghuvamsa' - **True**
4. Ashoka was a famous king from the Gupta dynasty - **False**
5. The Gupta dynasty existed about 1600 years ago - **True**
6. During the Gupta dynasty, we discovered that the Earth is round - **True**
7. Chandragupta is considered the founder of the Gupta dynasty - **True**
8. The Gupta dynasty spread through parts of modern day Brazil - **False**
9. Chess came up as a game during the Chola empire - **False**
10. Aryabhatta wrote all of the Panchatantra tales - **False**

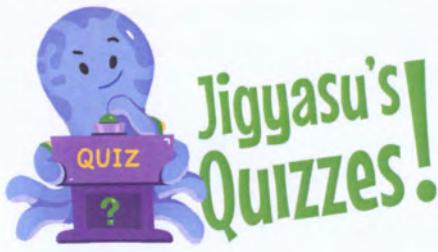

Jigyasu's Facts!

One of the oldest universities in the world - Nalanda University was founded during the Gupta dynasty's rule!

CH 12 OUR SCIENTISTS AND MATHEMATICIANS

Read these sentences related to some of India's greatest scientists and mathematicians. Answer these questions related to them.

Also find the answers in the word grid on the next page. One example has been provided

1. **Aryabhata** was a great Indian mathematician who gave several important theories associated with mathematics and astronomy. He is credited for giving us a very important number. Any number multiplied by **ZERO** becomes **ZERO**.

2. **Srinivasa Ramanujan** was an Indian mathematician who gave solutions for complex mathematical problems without having any proper education in the field. Some of his equations are now being used to study blackholes in outer **SPACE**.

3. **Sushruta** was an ancient Indian physician who is called the 'Father of Surgery' in the world. In his book, Sushruta Samhita, he has written extensively about general **MEDICINE**. We consume **MEDICINE** to cure diseases.

4. **Charaka** was also an ancient Indian physician who specialised in **AYURVEDA**. Even today, **AYURVEDA** is used extensively to cure different ailments in India.

5. **Sir C V Raman** was an Indian physicist who is famous for giving the theory of Raman Effect. This effect basically explains the scattering of **LIGHT** when it passes through different materials.

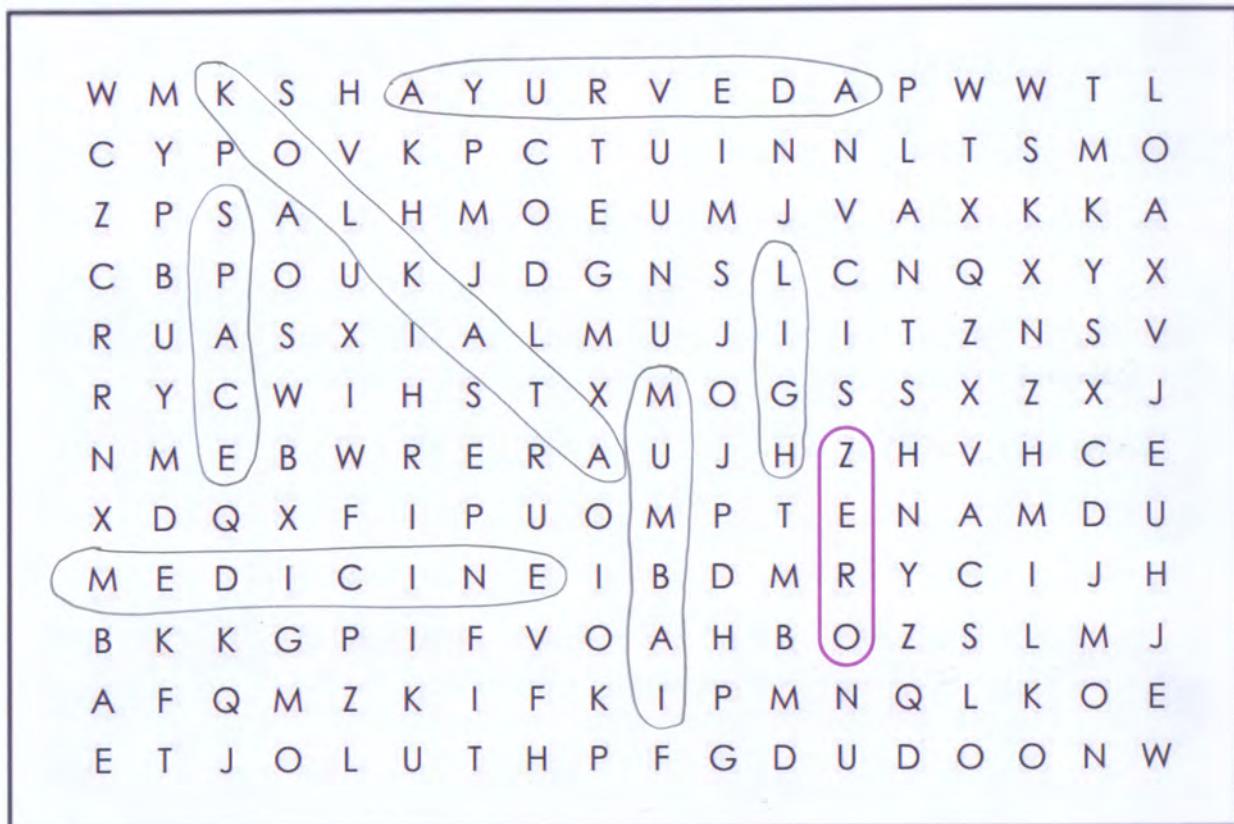

6. **Homi Bhabha** is known as the 'Father of the Indian Nuclear Programme'. He devised the strategy to be followed to develop nuclear energy in India. The Bhabha Atomic Research Centre is named in his honour and is situated in India's financial capital - **MUMBAI**.

7. **Satyendranath Bose** was one of India's greatest modern scientists who specialised in a field of science called 'Quantum Mechanics'. He also worked closely with renowned scientist Albert Einstein. Bose was born in West Bengal's capital - **KOLKATA**.

Word Grid - words are hidden across, down and diagonally

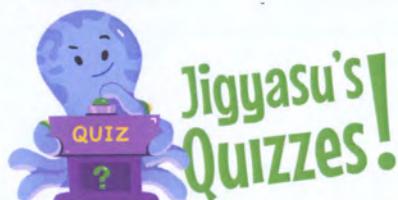

Can you imagine how different mathematics would have been if the number zero did not exist? Just think of how many things would have been impossible!

Language Integrated Activity

There are many great Indians who fought for our independence from British rule. We live in a free country today because of their sacrifices.

Fill in the blanks in these passages with the correct words. One example is given

Begum Hazrat Mahal

One of the few women who challenged (helped/challenged) the British and led from the front in the freedom Revolt of 1857

She was the QUEEN (Queen/Prince) of Awadh - a region that now lies in the state of Uttar Pradesh. The capital of Uttar Pradesh is

LUCKNOW (Lucknow/Allahabad).

After the British captured Awadh, she was EXILED (exiled/honoured) to Nepal as a punishment for her efforts to gain freedom

Nepal is India's neighbouring country. Can you name some other neighbouring countries of India?

BHUTAN, PAKISTAN.
AFGHANISTAN

Rani Laxmibai

Also known as the Rani of JHANSI (Jhansi/Coimbatore), she fought bravely against the British during the Revolt of 1857

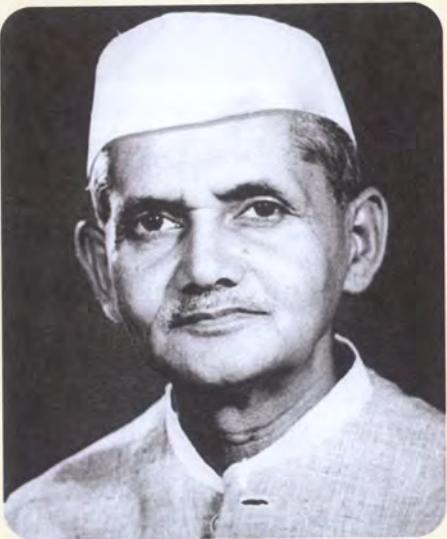

She led her army in the BATTLEFIELD (court/battlefield) fighting against the British in the Battle of Jhansi but ultimately LOST (won/lost) this battle and had to escape

She later captured the Fort of Gwalior situated in MADHYA PRADESH (Maharashtra/Madhya Pradesh). In an effort to recapture the region, she FOUGHT IT (avoided/fought) battles with the British and died on the battlefield in 1858

The Fort of Gwalior is considered very beautiful. Can you name some other Indian forts?

RED FORT, AGRA FORT
GOLCONDA FORT

Lal Bahadur Shastri

Lal Bahadur Srivastava was a freedom fighter who became the SECOND (first/second) Prime Minister of India. He was given the title 'Shastri' after completing his studies

To SUPPORT (oppose/support) Gandhiji's efforts, he joined the freedom struggle in 1920, when he was just 16 years old and spent nearly 7 years in British PRISONS (palaces/prisons)

He was known for his ethics and resigned as the Minister of RAILWAYS (Railways/Defence) after a railway accident killed 140 people

He came up with the slogan 'Jai Jawan, Jai Kisan' to motivate soldiers and FARMERS (doctors/farmers) during the Indo-Pak war of 1965.

Can you find out who is the current Minister of Railways in India?

SHRI ASHWINI VAISHNAW

Chandrashekhar Azad

Born as Chandrashekhar Tiwari and lovingly called 'Azad', he became an active freedom fighter as a teenager and believed that INDEPENDENCE (independence/slavery) could be achieved through action alone

He is most famous for the Kakori Conspiracy in which members of the Hindustan Revolutionary Association LOOTED (protected/looted) a train carrying British treasures so they could buy more weapons for India's freedom struggle

After many attempts by the British to ARREST (reward/arrest) him, he finally died fighting them in Alfred Park, Allahabad. The park is now named after him.

Many monuments are named after Indian freedom fighters. Can you list down some of these monuments?

NETAJI BHAVAN
GANDHI SMRITI

Pakistan and India were once a single nation and share a common history. The Partition of India took place on 15th August, 1947 after which both became separate nations.

CH 23 HOMOPHONES AND ABBREVIATIONS

Language Integrated Activity

Jigyasu's Challenges!

A homophone is a word that is pronounced in the same way as another word but has a different meaning. In the box below, there are many common homophones. Can you use the correct homophone for each of the sentences below? One example is given.

one/won - night/knight - idle/idol - ate/eight - lead/led - weather/weather - fare/fair - rose/rows - for/four - root/route - steel/steal - fourth/forth

1. A knight is very important piece in the game of chess.

2. My cupboard is made of a material called STEEL.

3. It is nice and sunny. I really like the WEATHER today!

4. The author of this book considers APJ Abdul Kalam his IDOL.

5. When soldiers march, they always organize themselves in perfect ROWS.

6. Jigyasu is an Octopus who has EIGHT legs.

7. You will get home via a shorter ROUTE if you take a left at this signal

8. Apart from orange, white and green, navy blue is the FOURTH colour in the Indian flag

9. India WON its first Cricket World Cup in 1983

10. In a doubles game in tennis, FOUR players play the game together

Language Integrated Activity

An abbreviation is a shortened form of a word or phrase, by any method.

It typically has the first letters of different words in a phrase, or few letters from a word if it is being shortened.

A common abbreviation is DOB which means 'Date of Birth'

The number of abbreviations we use has especially increased in today's times, since we started texting on smartphones.

Can you identify the full forms of the following abbreviations? Use Google or any other search engine on the Internet if you don't know them.

ASAP - As soon as possible

ETA - ESTIMATED TIME OF ARRIVAL

BRB - BE RIGHT BACK

AKA - ALSO KNOWN AS

DIY - DO IT YOURSELF

FOMO - FEAR OF MISSING OUT

LOL - LAUGH OUT LOUD

FYI - FOR YOUR INFORMATION

NP - NO PROBLEM

TBH - TO BE HONEST

Hi! I don't feel like going to school today.

LOL! You never do!

But I always go because of FOMO!!!

My mom is calling me.
BRB!

Can you try using all the abbreviations mentioned above in different sentences?

For answer keys, facts and more quizzes related to 'Homophones & Abbreviations' & weekly current affairs quizzes, please visit the following link:
globaljigyasu.com/books/grade4
You can also access them through the following QR Code

Money is simply a medium of exchange for buying different goods and services. It is definitely a very important part of life as we know it.

But how did money become what we know it as today? Let's study the origins of money!

The Barter System

For thousands of years, the most common system of exchange was the barter system. It was a system of exchange in which people directly exchanged goods and services with each other. E.g. A farmer would exchange his food grains for a carpenter's furniture

The barter system worked when the world was much simpler than what we know it as today. It would fail in today's times though as **most goods and services**:

Cannot be divided

Difficult to store like food grains

Difficult to carry around

A common medium of exchange for determining the value of different goods and services was required which could be:

1. Stored easily
2. Carried around easily
3. Available in large quantities
4. Divided in value into smaller amounts

Thus, coins and then paper money were born!

Coins and Paper Money

The use of coins  began across the world around 2500 years back. However, by the 17th century (400 years back), paper money  became a lot more popular.

Can you think of 4 reasons that make paper money a great medium of exchange?

1. Paper is easily available in large quantities (made from wood)
2. IT IS LIGHT WEIGHT, SO CAN BE CARRIED EASILY
3. IT CAN BE STORED EASILY AS IT IS NOT PERISHABLE
4. IT CAN BE EASILY EXCHANGED FOR GOODS & SERVICES
5. IT IS EASY TO COUNT

Every country has its own form of paper money that is called CURRENCY. Currency in the form of cash (paper/money) is printed in MINTS (mints/schools). Only a country's central bank typically mints money. In India's case it is the

RESERVE BANK OF INDIA (Reserve Bank of India/State Bank of India/HDFC Bank)

What has a head and tail but no body?

Answer: A coin!

Plastic Money

Plastic money refers to **credit cards** and **debit cards**  used in modern times for transferring money. They are typically made of plastic and are given to us by banks.

The first card was introduced only in 1967 by Barclays bank in London. So it is very recent.

Can you think of some of the advantages of plastic money over paper money?

1. TREES DON'T NEED TO BE CUT FOR MAKING PLASTIC
2. MONEY CAN BE EASILY TRACKED

Some disadvantages of plastic money are that it cannot be used everywhere like in very small shops, and is not always 100% safe to use.

Online Electronic Transactions

In the past 15-20 years, transferring money electronically via softwares & applications on our smartphones and computers has become quite common.

They allow for money to be transferred from one person to another using the Internet. This happens directly from our bank accounts.

Money can also be stored in digital wallets which can be used to store our money electronically. Paytm Wallet and Amazon Pay are 2 examples.

Using online transactions and digital wallets is becoming a lot more common now. Can you give a few reasons for this?

1. IT IS CONVENIENT TO USE
2. GOOD OFFERS & DEALS

What is the full form of OTP (required for making most online transactions)?

One TIME PASSWORD

There are other forms of money which are also used but are not so common as yet. Digital money such as cryptocurrency is one such example.

Paper money, plastic money and electronic transactions are still the most popular modes of money exchange

Can you think of some things that money cannot buy?

Now that you know all the features of a good medium of exchange, can you come up with a currency of your own? It can be made from any material (like leaves) except paper and metals like silver, copper etc.

Name the currency and try and come up with different denominations for it (5, 10, 20 etc.).

Kushti! Pehelwani! Dangal! Malla-Yuddha! These are some of the words by which **wrestling** is popularly known in different parts of India. One of India's oldest sports (**2500 years old**), it has been a very important part of our history and culture.

Wrestling has been mentioned in Indian epics like the **Mahabharata** as well. **Bhima**, the 2nd among the 5 Pandavas, was believed to be the strongest wrestler on the planet! The mace (**gada**) is one item that we often connect with Bhima and wrestling as well.

Bhima

In most parts of India, wrestling is a form of fitness for men and women. In small towns and villages of states like Punjab, men wear **langots** (loincloths) and wrestle in **akhoras** - mud grounds for wrestling. Each part of India has its own wrestling style. Wrestling became popular as an organized sport only in the 19th century. There are 2 forms of it that came to be recognised globally - **freestyle wrestling** and **Greco-Roman wrestling**. Wrestlers began participating in tournaments across the world and showing their skills.

Gama Pehelwan

While wrestling seems like it is all about brute force and power, it actually requires a lot of quickness and technique. India's first real wrestling star was **Gama Pehelwan** in the early 1900s. It is believed that he was never defeated by any wrestler across the world beating many famous ones from the USA and Europe. **Dara Singh** was another famous Indian wrestler in the 1940s.

One of the most inspirational wrestling stories though, is that of **KD Jadhav** - a wrestler from Maharashtra. Post independence from the British in 1947, India was a poor nation and did not have enough money to spend on sports. Apart from our hockey team which was the best in the world back then, India did not have any major sporting stars.

KD Jadhav was a talented wrestler who actually went from door to door collecting money to get trained as a wrestler. It is a dream for many wrestlers to win a medal at the **Olympics**, the biggest sporting event in the world.

KD Jadhav worked very hard to make it to the **1952 Olympics** at **Helsinki, Finland**. With very little money and resources, he managed to win a **bronze medal** at the event.

His achievement was unbelievable! This was India's first individual medal at the Olympics after independence. No other sportsperson won another individual medal till Leander Paes won a bronze medal in tennis at the **1996 Olympics**, **44 years later!**

KD Jadhav

Today, India has become a global wrestling force. Its wrestlers have won many medals at the Olympic Games and world championships. India's lady wrestlers like **Geeta Phogat**, **Sakshi Malik**, **Anshu Malik** among others are also doing us very proud!

When we learn about the Olympics in the next few Grade books, you will learn about how India's wrestlers like **Sushil Kumar**, **Ravi Dahiya** and **Bajrang Punia** are flying India's flag high at wrestling events. Would you like to emulate them? Go join an akhara!

Jigyasu's Quizzes!

Language Integrated Activity

Refer to the passage related to 'Indian Sports - Wrestling' and answer the following questions.
