Answer Key

A Note to All Students About the Answer Key & Book Series

Hello students!

I hope you are doing well and working towards enhancing your general knowledge and awareness through the ‘Empowering GK with Global Jigyasa’ series among other resources.

Before you open the answer key, **I just want to make sure that you have tried your best to find the answers for yourself!** All of us as human beings love getting answers to questions asked. It is human nature in fact.

However, when it comes to GK or any other subject, it is important to make sure that **we try our best to find the answers for ourselves before we use resources like answer keys.** Students, trust me when I say that you learn more while searching for answers than you do once you get them.

General knowledge and awareness are all about reading new things. The joy of *jigyasa* or the curiosity to learn is what will make you better at GK. Keep your eyes and ears open to learn about anything happening around you, in your society, your nation and the world. We don't always need to learn with a clear objective in mind like an exam, a test or school homework. **Learn for the fun of it! That's what GK is about.**

Google search, use Wikipedia or other modes to learn more about the topics covered. Discuss answers with your friends and more importantly, discuss all covered topics and chapters in greater detail. And then, once you are done with all of these things, access this answer key! *For students of younger grades (Grades 1 to 3), parents must help and be a part of this process.*

It is for this reason that the answer key has not been provided at the back of the GK book. **We also want you to access all resources on the online portal such as the Weekly Current Affairs Quizzes and Extra Questions (per chapter).** Only when you do this, will you be fully utilizing the book and ensuring that it not only helps you enhance your GK but also your current affairs knowledge.

That said, I hope the answers in this answer key provide you with a gateway to *global jigyasa!*

Stay updated! Stay enlightened!

Regards,
Anansh Prasad
Author – Empowering GK with Global Jigyasa

CH 1

MY PEOPLE

Fill in the blanks to complete the poem. The words in the box will help you

I was given birth by my MOTHER

Papa is another name for my FATHER

My Papa's Papa is my GRAND FATHER

And my Mama's Mama is my GRAND MOTHER

If I have siblings they are my sisters & BROTHERS

fathers, mother, brother, uncles, brothers, grandparents, father, grandfather, aunts, grandmother, friends

My Mama's and Papa's sisters are my AUNTS

And their brothers are my UNCLES

Our lives have many people who make it divine

Friends, teachers, neighbours - they are all mine!

- Anansh Prasad

Can you draw and colour a picture of yourself with the most important people in your life? Explain the picture you have drawn to someone.

Circle the emotions that you feel towards members of your family at times. Explain why to one of your friends/teachers

happy

sad

angry

proud

COMMUNICATION

Communication is the act of sharing or exchanging information, ideas and feelings with others.

For human beings, life is impossible without communication!

We communicate with others in many ways.

Expressions & Gestures

Speaking

Writing

Typing

This book you are reading is the writer's way of communicating with you!

Speaking is the most common mode of communication. It is very important for us to speak our minds! Can you speak about yourself for 2 minutes without stopping? Do this in front of at least 5 people!

Many insects also communicate with each other in different ways! Bees communicate with each other by dancing! Try communicating something like bees do!

Fill in the blanks by choosing from the options provided. One has been provided as an example

Jigyasu's Quizzes!

1. _____ **(E-mails/posted letters)** are a faster mode of communication than posted letters **(E-mails/posted letters)**
2. Our HANDS **(lungs/hands)** help us communicate through GESTURES **(speaking/gestures)**
3. SMSing **(Letter writing/SMSing)** can take place through a SMARTPHONE **(smartphone/facial expressions)**
4. People SPEAK **(speak/smile)** to each other using different LANGUAGES **(post boxes/languages)**
5. Our POSTMAN **(garbage collector/postman)** helps us deliver LETTERS **(SMSes/letters)**
6. Every person in the world has the ability to COMMUNICATE **(communicate/inflate)** with others by SPEAKING **(speaking/barking)**

Write True or False for each statement in the box provided

1. We cannot communicate without speaking
2. Eye contact is not a common mode of communication
3. Animals do not communicate with each other
4. Music is also a form of communication
5. Humans and animals cannot communicate with each other

False

FALSE

FALSE

TRUE

FALSE

Dumb Charades

Can you act out the following without speaking through gestures only - dog, cat, elephant, lion, monkey and fish? Get your friends to guess the name.

Jigyasu's Challenges!

You can also access them through the following QR Code

INSIDE MY BODY

Our body is full of marvels! While we see so many body parts on the outside like our **5 sense organs** , hands and legs , have you ever thought about what's on the inside?

Inside our body, we have many different **organs**. They perform many roles that allow us to carry out different activities. Our **lungs**, for example, help us **breathe** in a gas called **oxygen** and breathe out a gas called carbon dioxide.

Without **oxygen**, different parts of our body would not be able to perform various functions. This **oxygen** is carried to different parts of our body by our **blood**. **Blood** flows through **veins** . This **blood** needs to be **pumped** to parts of our body, and this is done by our **heart**.

There are many other organs inside our body such as the **stomach** which helps us **digest food**. None of these organs would be able to perform their roles without our **brain** though. It **passes** **messages** through our body and keeps it running!

You can feel your heartbeat. Gently press 2 fingers on the left side of your chest. Sit still and breathe. You will feel the beat. Try this! Did you feel it?

Language Integrated Activity

Circle the correct answers in these questions.
Referring to the passage will help. Some questions
might have more than one answer right.

Jigyasu's! Quizzes!

1. Which of these are our 5 sense organs?

- a. Eyes and Ears b. Nose, Skin, Tongue c. Heart

2. Which organ inside our body pumps blood to parts of our body?

- a. Heart b. Brain c. Stomach

3. Which of these organs has not been mentioned in the passage?

- a. Veins b. Liver c. Kidneys

4. Without which gas will our body organs not be able to perform activities?

- a. Neon b. Carbon Dioxide c. Oxygen

5. Which of these body organs can be seen outside our body?

- a. Heart b. Fingers c. Brain

6. Which body organ passes signals through our body to keep it running?

- a. Brain b. Lungs c. Stomach

7. Blood flows all through our body with the help of these organs

- a. Heart b. Stomach c. Veins

8. I ate an ice cream for lunch. In which part of my body will it be digested?

- a. Stomach b. Veins c. Brain

9. Most of the space inside our body is filled with this liquid?

- a. Milk b. Oil c. Water

10. Which of these is not a body organ found in humans like us?

- a. Horns b. Tusks c. Tail

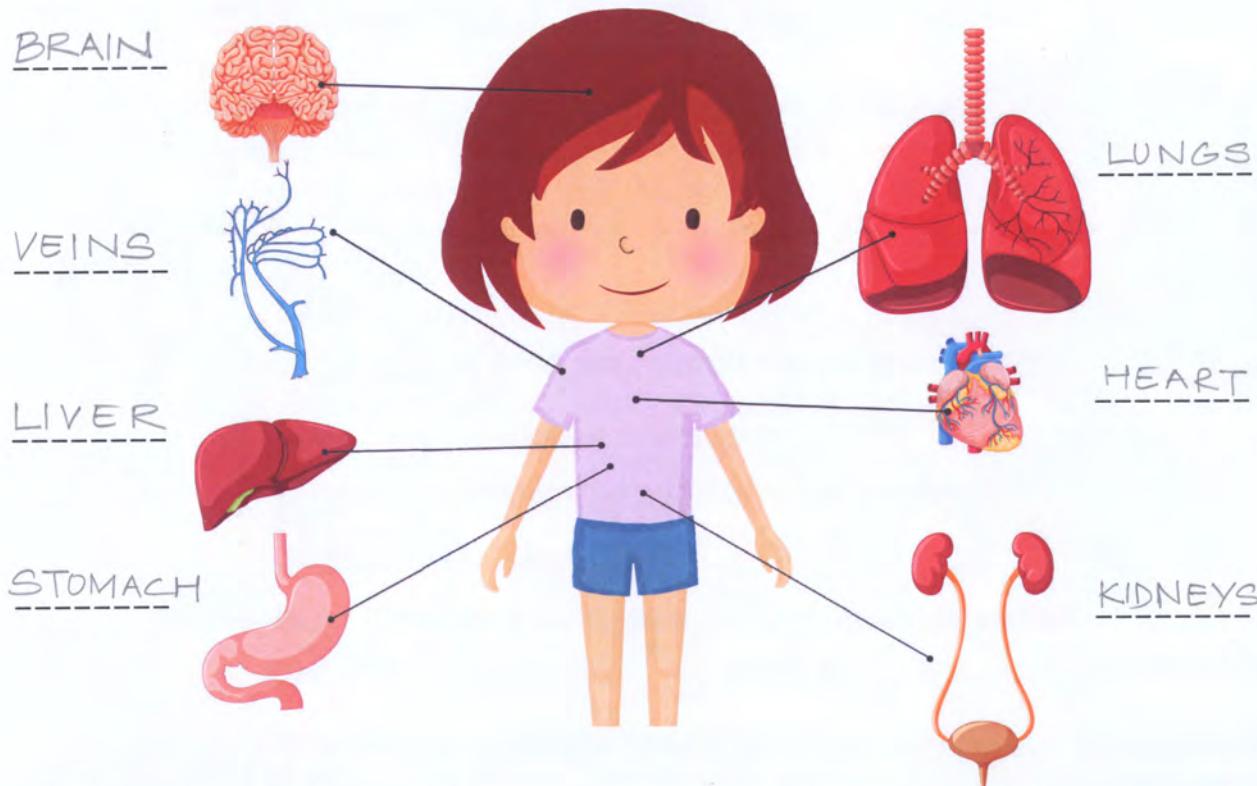

Jigyasu's! Facts!

Our heart beats over 1,00,000 times in a day. It clearly does a lot of work, isn't it?

Jigyasu's Challenges!

Fill in the blanks with the correct names of the different body parts.
Refer to the box for help.

Jigyasu's Challenges!

Lie down and close your eyes. Keep still and focus on your breathing. Can you now count the number of breaths you take in 5 minutes?

It will probably be somewhere between 40 to 60 breaths!

CH 4

OCCUPATIONS

The job or profession that a person takes up is called an **occupation**. There are many different **occupations** in our society.

Provided below is a list of occupations. **Strike off the incorrect word in the sentences related to them.** One example has been provided.

1. **Lawyer** - A person qualified to advise about the ~~law/weather~~ and represent us in court cases
2. **Pilot** - A person who receives training to ~~drive/fly~~ an aeroplane
3. **Architect** - A person who ~~designs/photographs~~ buildings and houses
4. **Journalist** - A person who informs us about the world's happenings through news ~~reports/buildings~~
5. **Software Developer** - A person who develops ~~computer programmes/court cases~~
6. **Accountant** - A person who studies and keeps track of ~~financial/scientific~~ information
7. **Politician** - A person who wants to hold or holds a position in the ~~government/household~~
8. **Astronaut** - A person trained and equipped to be flown into outer ~~space/under-ground~~
9. **Chef** - A professional ~~cook/plumber~~ responsible for all aspects of making food in restaurants
10. **Dentist** - A ~~doctor/carpenter~~ who helps people keep their tongue, teeth and mouth healthy

All the occupations mentioned above are numbered from 1 to 10. Write the number of the occupation that is related to the images provided below. One example has been provided below.

1

You can also access them through the following QR Code

CH5

MATERIALS WE USE

A material is any substance that is used for making or doing something.

Our lives are surrounded by materials. Here are some examples:

Wood

Plastic

Gold

Materials are divided into 2 types - natural materials and synthetic materials

Natural materials: They are found in nature and are not made by humans

Synthetic materials: They are man-made and cannot be found in nature

Provided below is a list of natural and synthetic materials.

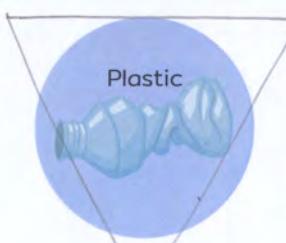

Circle the natural materials & put a triangle around the synthetic materials. Also name any object made with the material. One example has been provided.

Jigyasu's Challenges!

Table

TRAY

CLOTHES

BOTTLE

ROPE

BUILDING

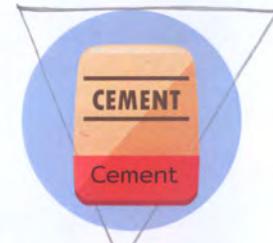

POTS

BAG

MIRROR

BUILDING

Glass is actually made from very fine sand. Watch a video on the Internet to learn how!

Jigyasu's Facts!

Art Integrated Activity

While we use many materials to make different things, some of them are very harmful to the environment. One such material is plastic. Here are some worrying facts:

Over 20,00,000 plastic bags are produced every minute! Most of these cannot be recycled

They are thrown into seas and rivers causing harm to the fishes, animals and environment

If you walk on a beach, **more than half the waste you'll see around is plastic** (around 70%)!

We must reduce our use of plastic bags and plastic products.

Can you draw and colour a poster which encourages people to not use plastic bags? Show it to at least 10 people.

**Look around you - up, down, everywhere!
How many materials can you count?**

For answer keys, facts and more quizzes related to 'Materials We Use', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2

You can also access them through the following QR Code

CH 6 HOUSES PEOPLE LIVE IN

India's villages, towns and cities are surrounded by different types of houses - places where people live! Houses can broadly be divided into 2 types based on their construction materials:

Temporary Houses (Kutcha Houses)

-Made from easily available materials such as wood, straw, clay etc.

- They are weak in structure and cannot last for very long
- Most of these houses belong to people who are poor

Permanent Houses (Pucca Houses)

-They have a strong structure and are built using materials like iron, steel, cement etc.

- These houses are very sturdy and can last for very long
- They are expensive to build and mostly belong to people who are rich

Unjumble the names of the different houses provided below and mark them as kutcha/pucca houses. One example has been provided.

**Jigyasu's
Quizzes!**

**UHT
HUT**

kutcha/pucca

**ETTN
TENT**
 kutcha/pucca

**TRAAPNMTE
APARTMENT**
 kutcha/pucca

**ULIBDGN

 kutcha/pucca

**GLWOUBNA
BUNGALOW**
 kutcha/pucca

**TLOHE
HOTEL**
 kutcha/pucca

Houses Across the World

In different countries across the world, there are some very unique houses in which people live. Here are a few of them!

Cave Homes
Country: Tunisia
Ancient homes found in Matmata town

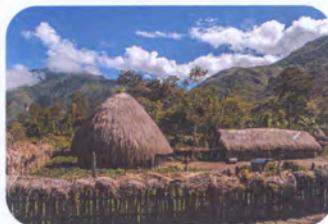

Yurts
Country: Kyrgyzstan
Portable tents made from animal skins

Underground Houses
Country: Australia
Protect against high temperatures

Igloos
Countries: Canada & Greenland
Houses made of ice. Eskimos live in them

Honai Homes
Country: Indonesia
Rounded homes made from wood & palm leaves

Hanok Houses
Country: South Korea
Have a distinct curved roof line

Shikara (House boat)
Country: India
Famous houseboats found in Kashmir

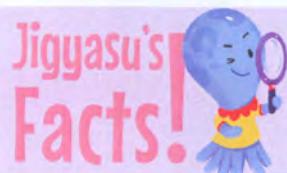

Stilt Houses
Country: Bangladesh
Increased height protecting houses from floods

Wigwams
Country: United States of America
Traditional houses made of straw, tree barks etc.

The Knap of Howar is the oldest known house in the world - a 5000 year old stonehouse!

AQUATIC ANIMALS

Aquatic animals are those animals that live in water for most of their lives

The waters of our world are full of surprises

Full of aquatic animals  of all shapes & sizes

Thousands of fishes , dolphins  and whales 

In seas, rivers and lakes in which a  ship sails!

Aquatic animals  - there are too many to name

But we are polluting  their homes - it is a shame!

Reduce , reuse , recycle  - keep our waters clean

Keep these animals' homes safe & serene!

- Anansh Prasad

Jigyasu's Challenges!

Aquatic animals are found in different water forms - oceans, seas, rivers, lakes and ponds!

In the picture provided, below spot the different aquatic animals. Circle them and write the first 2 letters of their name. One example has been provided. Use this box for help!

Crab, Dolphin, Jellyfish, Turtle, Starfish, Octopus, Seahorse, Shark, Seal, Snail

Math Integrated Activity

Tick mark the correct option in these questions related to aquatic animals. One example is provided

1. An **octopus** has blue blood. It has ____ arms - each of which have their own brains! ____ is the number we get when we add 4 to itself!

- a. 6 b. 10 c. 8

2. The **Antarctic blue whale** is the world's largest animal. They sing songs and can weigh as much as about ____ elephants! ____ is $9+7+8$.

- a. 28 b. 24 c. 30

3. **Sharks** eat all kinds of small aquatic animals and can have over ____ 000 teeth in their lifetimes! ____ is $43 - 6 - 2$.

- a. 38 b. 37 c. 35

4. A **starfish** has no brain and no blood! It can have anything between 5 & ____ arms. ____ is $(10 \text{ added to itself}) + (10 \text{ added to itself})$

- a. 40 b. 20 c. 30

5. **Dolphins** have excellent sight and hearing. These friendly animals have ____ stomachs. ____ is 1 more than the stomachs you have!

- a. 3 b. 1 c. 2

6. **Lobsters** taste with their legs and keep growing through their lives. They have 5 pairs of limbs of which ____ are claws. ____ is $15 - 12$.

- a. 3 b. 4 c. 2

What did one polite whale say to another whale?

Answer: You are whale-come!

For answer keys, facts and more quizzes related to 'Aquatic Animals', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

CH 12

INSECTS

Insects are small animals that have 6 legs and two pairs of wings.

There are over 10,00,000 known species of insects, making them the most abundant and diverse animals on Earth!

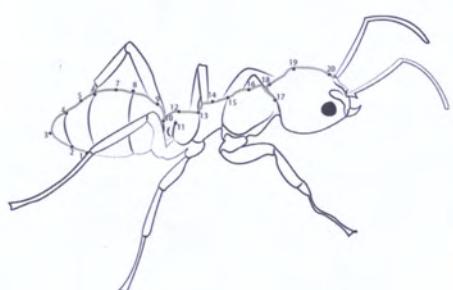

Jigyasu's!
Challenges!

Art Integrated Activity

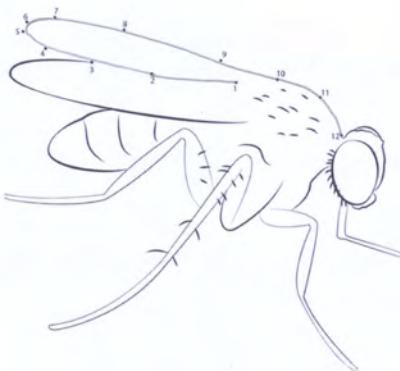

Join the dots in each figure and identify the name of the insect. One example has been provided. You can colour these insects as well! The names in the box will help!

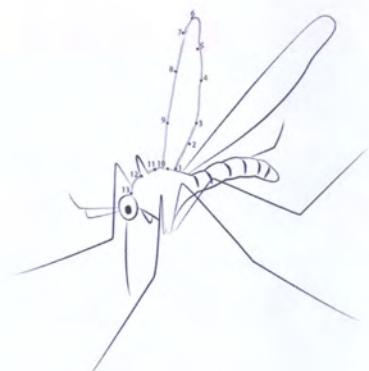

Mosquito, Bee, Ant, Termite, Fly, Butterfly

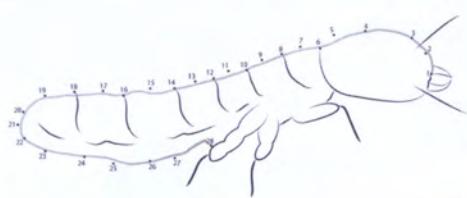

Ant

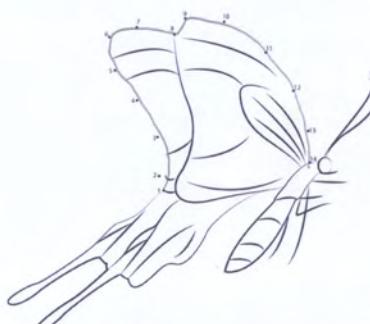

FLY

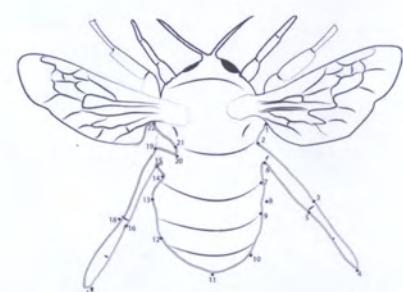

MOSQUITO

TERMITE

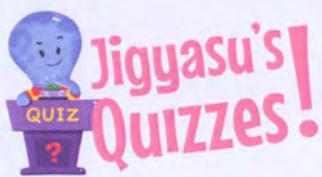

BUTTERFLY

BEE

Spiders are not insects as they have 8 legs. They are arachnids

Jigyasu's!
Facts!

While many of us find insects to be creepy-crawly and harmful to us, this is not always true. Many insects like bees play a very important role in our lives.

Write True or False for the following statements. One example has been provided

1. Ants are hard working creatures that can carry 50 times their weight

True

2. Malaria and dengue are diseases caused by termites

False

3. Flies have compound eyes which allow them to see behind as well

True

4. Bees are the only insects that produce a food we consume - honey

True

5. Termites never sleep and love to eat wood, harming our furniture

True

6. Butterflies are beautiful and are actually caterpillars when born

True

7. Mosquitoes live in colonies called anthills

False

8. Ladybugs are beetles. They have a beautiful red colour

True

Jigyasu's Facts!

Pollination is a very important process through which plants are able to produce more plants. This happens when pollen grains are transferred from one part of a plant to another.

Insects like bees and flies play a major role in helping with this transfer and pollination! We must be very thankful to them!

*How many insects have you seen around you since yesterday?
Name them!*

For answer keys, facts and more quizzes related to 'Insects', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

CH 13 ANIMALS & BIRDS II

Jigyasu's Quizzes!

Match the 3 columns so that each animal/bird is matched with their young one and shelter. One example has been given.

Animal/Bird	Young One	Home/Shelter
Dog	Duckling	Cattery
Cat	Puppy	Stable
Lion	Kitten	Kennel
Hen	Piglet	Coop
Horse	Cub	Den
Pig	Calf	Pond
Cow	Foal	Sty/Pen
Duck	Chick	Shed/Barn

Jigyasu's Challenges!

Can you make 1 of your friends/family members guess the names of all animals and birds mentioned above by only making their sounds?

For answer keys, facts and more quizzes related to 'Animals and Birds II', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

PLANTS & TREES

Plants and trees add to the greenery around us and are beautiful! However, they play a very important role in our lives beyond this.

Provide homes for birds and animals

Parts of plants have medicinal value

Hold the ground together

Provide oxygen to breathe

Reduce the temperature

Give shade from the sun

Thus, we must grow more trees and plants, and not cut them.

Identify these different plants and trees. The images have different hints which will help you. One example has been provided

Mango Tree, Tulsi Plant (Basil), Oak Tree, Coconut Tree, Banyan Tree, Banana Plant

Banana Plant

BANYAN TREE

COCONUT TREE

MANGO TREE

OAK TREE

TULSI PLANT

Can you make a song that encourages people to plant more trees?

The Place For Money - A Bank!

A bank is a place where money is stored, managed and looked after for many people. All of us must open a bank account to save, spend and manage our money!

Do you have a bank account of your own? Ask your parents to open one for you if not.

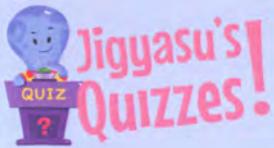

Can you name some Indian banks around you?

1. CANARA BANK
2. DENA BANK
3. INDIAN OVERSEAS BANK
4. BANK OF BARODA

Every Indian rupee note has a unique 9 digit code on it and 2 pictures of Gandhiji. Can you find the 2nd hidden picture and this code on a note?

Math Integrated Activity

Circle the correct option for each of the questions. One example is provided.
Keep some actual money notes in hand and try using them while solving questions in this quiz!

Q1. Trishta has 1 note of ₹10/-, 1 coin of ₹5/- and 2 coins of ₹1/-. If she wants to buy 1 kg of rice that costs ₹12/-, then what should she give the shopkeeper?

- a. The ₹10/- note and both ₹1/- coins b. Only the ₹10/- note

- c. The ₹5/- coin and both ₹1/- coins

Q2. Rhea has 2 notes of ₹50/- and 1 note of ₹100/-. What can she exchange these 3 notes for?

- a. A ₹2000/- note

- b. A ₹1000/- note

- c. A ₹200/- note

Q3. Nabeel wants to buy himself a packet of dry fruits worth ₹110/-. Which of these notes must he carry to have enough money?

- a. A ₹50/- note

- b. A ₹200/- note

- c. A ₹100/- note

Q4. Pranjali has bought a chocolate worth ₹15/-. She gives a ₹20/- note to the shopkeeper. How much money should he return to Pranjali ?

- a. A ₹2/- coin

- b. A ₹10/- note

- c. A ₹5/- coin

Q5. We do not have a rupee coin for which of these amounts?

- a. ₹5/-

- b. ₹2/-

- c. ₹15

Q6. If Fursan wants to exchange a ₹10/- note for some coins, then which of these coins must he exchange them for?

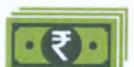

- a. 4 coins of ₹2/- each

- b. 8 coins of ₹1/- each

- c. 2 coins of ₹5/- each

Q7. We do not have a rupee note for which of these amounts?

- a. ₹50/-

- b. ₹100/-

- c. ₹30/-

Every country has its own type of money it uses called its currency.

Can you match the countries with the names of their currencies?
One example has been provided.
The flags next to the currency names will also help you!

India

CH 16 DRY FRUITS & NUTS

Dry Fruits are those which have very little water content. Along with nuts, dry fruits are important for us as they provide nutrients, energy and improve overall health. Instead of junk food, have dry fruits and nuts!

Jigyasu's Challenges!

Unjumble the names of different dry fruits and nuts provided below. Their names provided in Hindi will help you identify them.

Also, draw the dry fruit/nut in the box provided for this. You will see pictures of all the dry fruits/nuts somewhere on this page for reference! One example is provided.

CSHEWA (Kaju)

CASHEW

Its shell is used for producing paints

IHAISCPTO (Pista)

PISTACHIO

Great source of stamina and energy

ADONML (Badam)

ALMOND

Used for making a form of milk

RIIASNS (Kishmish)

RAISINS

They are simply dried black grapes!

ADEST (Khajoor)

DATES

Purify our blood and build bone strength

GFI (Anjeer)

FIG

High in nutrients like calcium

ORATPIC (Khubani)

APRICOT

Improve vision and used for making jams

NEW YEAR'S DAY

8th March every year is celebrated as Women's Day across the world to celebrate the achievements of women

Jigyasu's Facts!

Jigyasu's Challenges!

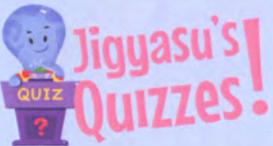

Answer these questions related to yourself and arrange the dates from earliest to latest date

- I was born on this date - 10.01.2014
- I will become 18 years of age on this date - 10.01.2032
- I entered into 1st grade in this year - 2020
- My mother was born on this date - 10.03.1982
- I will enter Grade 10 in this year - 2030

Arrange these dates from earliest to latest

4, 1, 3, 5, 2

Write True/False for the given statements

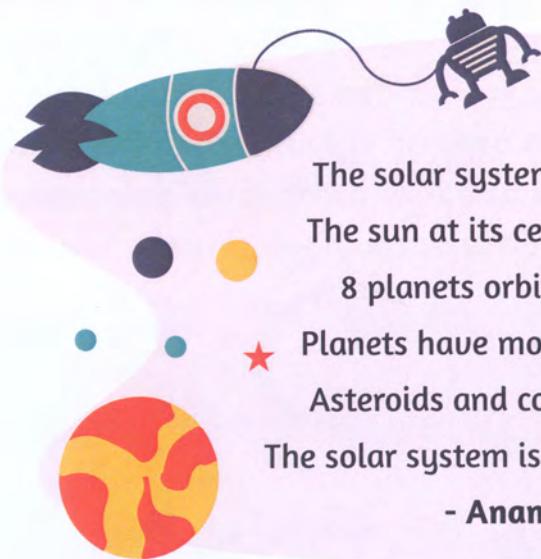

- Your birthday comes only once in a year - **True**
- February is the only month with 28 days - **False**
- If I am born on Teacher's Day, then my birthday comes after Christmas each year - **False**
- Every month has at least 27 days - **True**
- If December is now called February, then Christmas is now celebrated on 25th February - **True**

CH 18 OUR SOLAR SYSTEM

The solar system is where we live.
The sun at its center - light it gives
8 planets orbit around the sun
★ Planets have moons. Earth has one!
Asteroids and comets are there too
The solar system is home - for me & you!

- Ananth Prasad

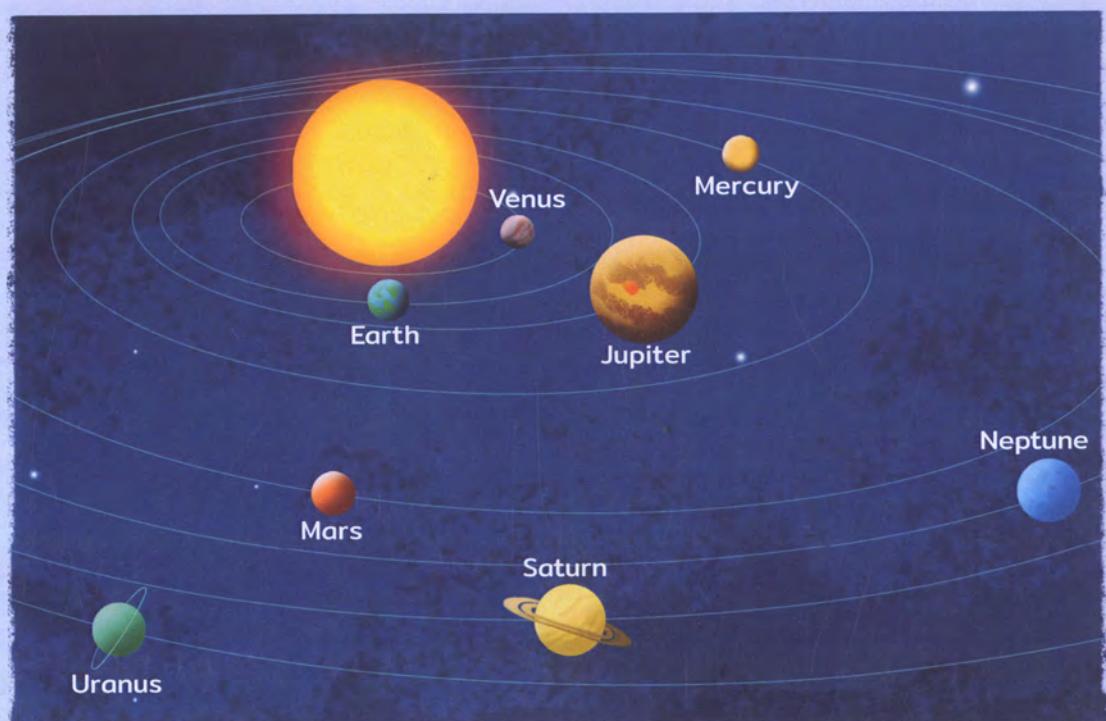

Jigyasu's Challenges!

Art Integrated Activity

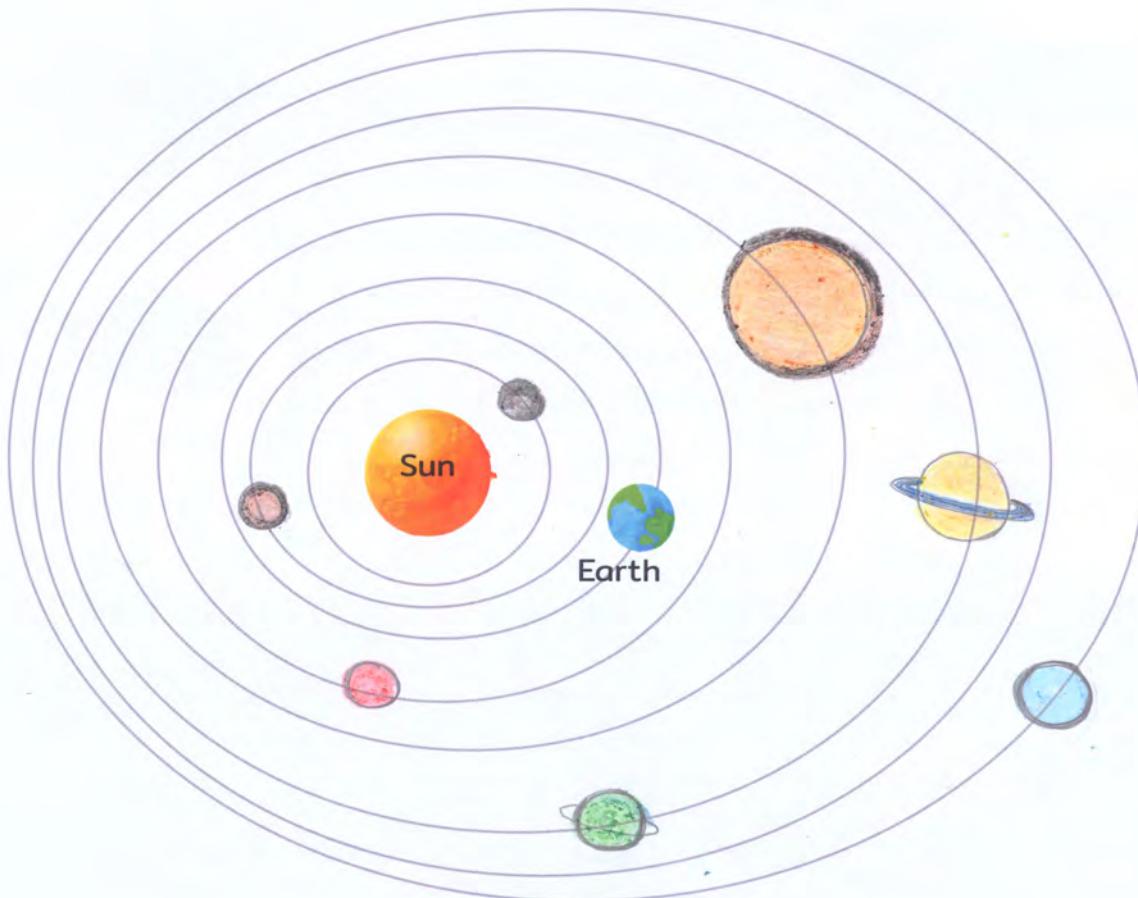

8 planets revolve around the sun in different orbits. There is a particular order in which they revolve - the Earth is the 3rd planet from the sun.

In the image below, the orbits of the different planets have gotten mixed up. Can you arrange the planets in their correct order of orbits around the sun in the image on the next page?

Arrange the planets in their correct order in the orbits provided below. Also colour them. One example of Earth has been provided. Hint: This sentence can be used to remember the order of the planets from the sun -

My Very Excited Mother Just Served Us Nachos

Jigyasu's Quizzes!

Fill in the blanks with the correct answer. Use the names in the box for help.

Mars, Sun, Earth, Neptune, Saturn

- Called the 'Red Planet', it shares its name with a popular chocolate Mars
- Also called the 'Blue Planet', this is the only one with living things EARTH
- This is the source of light for our solar system SUN
- This planet is the farthest from the sun and is also the coldest one NEPTUNE
- This is the 6th planet from the sun and has the most moons SATURN

For answer keys, facts and more quizzes related to 'Our Solar System', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

CH 19 INVENTIONS AND DISCOVERIES

Inventions and **discoveries** have played a major role in helping us live better lives.

There is a big difference between an **invention** and a **discovery** though. An **invention** is something that is **created by us humans** and **did not exist before**. A **discovery** takes place when we come **across something that already exists in nature**, and which is **done or found by a human** for the first time.

One of the **earliest and most important discoveries** for mankind was **fire**. This took place thousands of years ago when ancient humans used stones to light a fire. Imagine life without fire. There are so many ways in which fire helps us. Can you think of some?

One of the **earliest and most important inventions** was that of the **wheel**. The people of the Mesopotamian civilization are considered to be its **inventors**. If there was no wheel, you would have no cars, buses and other vehicles. There are many other uses of the wheel too.

You will keep learning about more **inventions** and **discoveries** in different grades. Some other important ones are the **telephone** invented by **Alexander Graham Bell**; the **computer** invented by **Charles Babbage**; the **light bulb** by **Thomas Edison**; and **paper** by **ancient Chinese people**.

Some of the other **important discoveries** are different **oils** , **petrol** , **gold** , and **iron** . Most discoveries have taken place by accident!

Can you come up with your own invention or discovery? We're sure you can!

The scissors we use were actually invented by a famous painter named Leonardo Da Vinci!

Language Integrated Activity

Read the passage and answer the following questions. One example has been provided

Q1) What do we call something that is created by us humans and did not exist before?

- a) An invention b) A discovery c) An article

Q2) Without which of these discoveries would it have been impossible to cook food?

- a) Gold b) Fire c) Water

Q3) Which of these inventions has made it easier for us to travel from one city to another?

- a) Wheel b) Vaccines c) Paper

Q4) If I go to a mine and find a new metal that I name zold, then what have I done?

- a) An invention b) A discovery c) A goal

Q5) Alexander Graham Bell is credited for inventing which of the following?

- a) Guitar b) Computer c) Telephone

Q6) Which of these is a very important discovery?

- a) Gold b) Printing paper c) Table

Q7) Which of these is a part of a device invented by Charles Babbage?

- a) Keyboard b) Refrigerator c) Iron

What was an even more important invention than the first telephone?
Answer: The second one!

For answer keys, facts and more quizzes related to 'Inventions and Discoveries', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

CH20 SOLIDS, LIQUIDS & GASES

There are 3 forms in which everything around us exists – solids, liquids and gases

Solids: They have a fixed shape. **E.g. A pencil**

Liquids: They take the shape of the glass/container in which they are placed & occupy a fixed amount of space. **E.g. Water in a glass**

Gases: They take the shape of the glass/container in which they are placed and can occupy any amount of space. **E.g. Air around us**

Provided below is a list of items. Match them to the solid, liquid or gas boxes. One example is given

Blood Inside Us

Solid

Milk Inside the Bottle

Liquid

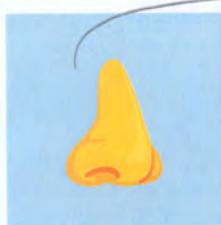

Coke In the Bottle

Gas

Oxygen We Breathe In

Hydrogen Inside This Balloon

For answer keys, facts and more quizzes related to 'Solids, Liquids and Gases', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2 You can also access them through the following QR Code

RECYCLING

Recycling is one of the most important needs to protect the environment.

It is the process of converting ready-to-be-thrown materials into usable ones. E.g. Once plastic water bottles are used, the plastic of these bottles can be used for making toys or new plastic bottles!

Many things can and must be recycled - especially plastics, paper, wood and cloth.

This allows us to make best use of materials. Also it stops materials like plastic from polluting our waters.

Before throwing our waste, we must separate recyclable materials from non-recyclable ones.

Recyclable materials can be used again and do not get spoilt so easily. Non-recyclable materials like food items on the other hand get spoiled after using them once.

Provided below is a set of items and 2 dustbins. Can you segregate the recyclable and non-recyclable waste? One example has been provided.

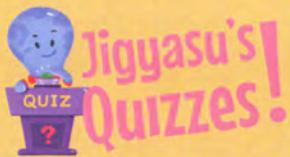

For answer keys, facts and more quizzes related to 'Recycling', & weekly current affairs quizzes, please visit the following link: globaljigyasu.com/books/grade2

CH 22 INDOOR GAMES & SPORTS

Indoor games and sports are those that are mostly played in your house or in a roofed building/area

Name the indoor game described in the sentences. Number their images in the picture grid with their sentence number. One example has been provided

Uno, Chess, Table Tennis, Snakes and Ladders, Scrabble, Tambola (Housie), Tic Tac Toe, Ludo, Carrom, Badminton

1) You play me by pulling building blocks. If you keep the building from falling, in this game you will rock! Jenga

2) Circles and crosses on a 9 square board, 3 in a row is the winning code!
TIC TAC TOE

3) A striker to put black and white coins in 4 pockets. A queen and a cover will put you on a winning rocket! CARROM

4) Judo is a martial art form that rhymes with its name. Most households have surely played this game! LUDO

5) Beware of snakes but not the ladders around. Hope that your luck with the dice is safe and sound! SNAKES AND LADDERS

6) Starting with 7 cards, say the game's name when you have 1 left in hand. Else you will in serious trouble land! UNO

7) This game is truly one of luck. Hope the numbers on your ticket can be stamped quickly while other players are stuck! TAMBOLA

The game of ludo has originated from an ancient Indian game called pachisi which was also played in the Mahabharata

Jigyasu's Quizzes!

Just like indoor games, there are many indoor sports as well. While some of these are played outdoors too, they are better when played indoors as winds and other weather conditions don't affect them indoors.

Circle the correct option related to each of these indoor sports.

1. Also called 'ping-pong', it is played with a paddle (bat) and a plastic ball. Achanta Sharath Kamal is the greatest Indian player of this sport. Which sport?

- a. Table Tennis
- b. Tennis
- c. Chess

2. This sport is played in 'alleys' often found in big Indian shopping malls. The goal is to knock down 10 pins by rolling a heavy ball. Which sport?

- a. Cricket
- b. Bowling
- c. Volleyball

3. PV Sindhu and Lakshya Sen are India's star players in this sport. It is played with a shuttlecock. Which sport?

- a. Kabaddi
- b. Table Tennis
- c. Badminton

4. MC Mary Kom is the greatest Indian to play this sport. For this sport, one needs padded gloves, a ring and a referee. Name the sport.

- a. Boxing
- b. Karate
- c. Wrestling

5. Dipika Pallikal and Saurav Ghosal are the best Indian players of this sport. It is a racket sport in which you have to hit the ball against a wall. Name the sport.

- a. Badminton
- b. Table Tennis
- c. Squash

6. This is a very popular martial art form across the world. It originated in Japan and is now played in all major sporting events. Name the sport.

- a. Fencing
- b. Judo
- c. Wrestling

7. Vishwanathan Anand is India's greatest player of this sport. A 64 square board, queens, knights and other pieces are needed to play it. Name the sport.

- a. Kho Kho
- b. Pachisi
- c. Chess

What is your favourite indoor sport and indoor game? Share your answer with one of your friends/family members.

Asks!

Art & Math Integrated Activity

Most of us have played the game of 'Snakes and Ladders'.

We roll the dice, try to stay away from snakes and climb the ladder to reach 100 and win the game!

Provided is a small sample board of Snakes and Ladders. Can you design your own board to play this game?

Your board must have 7 snakes and 8 ladders going between any sets of numbers

Try to make the game challenging and fun. Keeping too many long ladders or long snakes will not be fun. Distribute the ladders and snakes well. One example has been provided.

Draw these ladders and snakes in the square board below.

Colour it afterwards. Take some pieces and a dice, and play on this board with your friends!

100	99	98	97	96	95	94	93	92	91
81	82	83	84	85	86	87	88	89	90
80	79	78	77	76	75	74	73	72	71
61	62	63	64	65	66	67	68	69	70
60	59	58	57	56	55	54	53	52	51
41	42	43	44	45	46	47	48	49	50
40	39	38	37	36	35	34	33	32	31
21	22	23	24	25	26	27	28	29	30
20	19	18	17	16	15	14	13	12	11
1	2	3	4	5	6	7	8	9	10
